

Pedestrians, Cyclists and Public Transport Network

Key Issues and Opportunities Map

SPOTSWOOD STATION

Need to upgrade facilities (parking, end of trip facilities, safety etc) within and around the station and improve pedestrian, cyclist and public transport connections to encourage increased usage.

WEST GATE TUNNEL PATHWAYS

New shared user pathways connections to be delivered as part of West Gate Tunnel Project

KEY EXISTING PATHWAYS

Key existing pathways linking Coastal Trail and Stony Creek - potential for further upgrades

FUTURE LINKAGES

Investigate opportunities for new / upgraded east/west and north/south pedestrian and cyclist linkages (on and off-road) connecting key destinations such as the Spotswood Station, local shopping areas, schools, community centres and open space

CROSSINGS

Explore options for potential upgraded / new crossings at key locations to improve the safety and usability of the cycle and pedestrian network

ACTIVITY CENTRE AREAS

Investigate options for improving streetscapes and pedestrian and cyclist safety / priority around activity areas

WEST GATE PUNT

Opportunity to investigate upgrading punt service and facilities to improve transport options into the future
