- 6 New seating areas
- 8 Park entry is moved to accommodate the flying fox
- 9 Small curvey path through the trees
- 10 Existing trees - shown dark green
- 11 New native trees - shown with a cross in the middle
- 12 Extents of existing playground and path (to be removed) - dashed lines

## PLAN VIEW

\* This is a design concept only and may be subject to change.

This park will be upgraded in the near future with a new playground, seating spaces and open lawn catering for toddlers to teenagers with the highlight being a 40m. long flying fox. We would like to introduce some meadow grassland garden beds to reflect the indigenous landscape of the Western Plains of Melbourne.
