

- 1** New footpath to western side of reserve, including:
- pram/wheelchair access points
  - aligned to accommodate existing trees
  - connection to existing paths and playground
  - Improved maintenance vehicle access

- 2** New playground including:
- play equipment suitable for toddlers to older children
  - items accessible for all, where appropriate
  - natural play elements including balancing logs and smooth-edged boulders
  - picnic table in proximity to play area

- 3** Re-purpose Circular Gravel Pit - *TWO OPTIONS*
- *Option 1:* Children's Sand Pit with sand-play equipment to encourage cognitive and imaginative play
  - OR
  - *Option 2:* Fitness equipment suitable for a range of fitness levels

- 3a** Alternative location for fitness equipment

- 4** Improve existing arbour structure:
- Upgrade seating
  - Re-use old seat timbers for roof shade battens, if suitable

- 5** Install mulched beds for existing trees
- remove gravel sections and replace with mulch for weed prevention and moisture retention.

- 6** New tree plantings
- deciduous trees to shade arbour in summer
  - new shade trees to half-court and existing picnic area

Twin swing frame with 1 toddler seat and 1 strap seat (not shown)

Pivoting swing with basket seat suitable for all ages and abilities

Train with slide, tunnel, climbing and role-play suitable for pre-schoolers

Rotating Climbing Net

Multi-climbing frame with turnover bars

Trampoline suitable for all ages

② Examples of proposed play equipment to provide a variety of play activities for children from toddler age to early teens.

- ① Construct footpath along Craig Street reserve perimeter, aligning path to accommodate existing trees and including pram/wheelchair access points. Remove gravel 'bands' and replace with lawn or mulch beneath trees.

- ③ Re-purpose Circular Gravel Pit - **TWO OPTIONS**
  - **Option 1:** Children's Sand Pit with sand-play equipment to encourage cognitive and imaginative play
  - OR
  - **Option 2:** Fitness equipment suitable for a range of fitness levels
  - \* Alternative locations for fitness equipment can be considered

Either option will include seating and connection to playground.

- ④ Improve existing arbour structure:
  - Upgrade seating
  - Re-use old seat timbers for roof shade battens, if suitable
  - Plant deciduous trees to north side of arbour to provide shade in summer, while providing winter sunlight.
